Quiz 2 - Project Management

Question

Based on the project you planned at the beginning (the project you proposed during the Midterm Exam), answer the following questions:

1. What will you do to manage Human Resources in your project. Explain in full!

2. What do you do to manage the Communications in your project. Explain in full!

3. Is there a connection between HR management and communication in implementing the software development project you are carrying out? Explain in detail!

Answer

1. To ease personnel management, we plan to use a Responsibility Assignment Matrix (RAM) using RACI chart format based on the Work Breakdown Structure (WBS) we have previously made. This way, we can make sure everyone knows what they're supposed to be doing and balance the workload fairly and efficiently.
