Mid Exams

Do the steps to work on the questions below in order.

1. Login to your respective WindowsXP, and SSH using PuTTY to the Lecturer Server with the following credentials:

    IP Address : 10.10.10.5

    Username : dosenku

    Password : @kuinginLogin123

2. Create a new user on the lecturer's server with the command

    Sudo adduser <nimnamasiswa> *short name without spaces e.g.: 01020304ismail

    (Do Screenshoot)

3. Exit SSH and then connect again to the lecturer's server with a new username
4. Go to the /home/UTS2024 directory
5. Create a folder named <NIM_NAMAMAHASISWA>e.g.01020304_ISMAIL
6. Create a txt file that contains the following identities:
    1. Full name
    2. Place and date of birth
    3. Current address
    4. Phone number or other contact
    5. Student identification number (NIM) of the college or university concerned
    6. Study program and class year

    (Do Screenshoot)

7. FTP with Filezilla application, previously you need to install Filezilla on your Windows, Filezilla application files are located in the UTS2024 folder. Download and install.
8. Login to FTP using filezilla.
9. Download a file named signaturefile.pdf in the /home/UTS2024 directory
10. Rename the file from your windows by adding NIM in front of the previous file name, upload it to your folder on the lecturer's server

    (Do Screenshoot)

Collect 3 screenshots on the LMS page as proof of working on UTS questions.
