Intro to OOAD Course

Object Oriented Analysis and Design

Analisis dan Desain Berorientasi Objek

About Me

- Name: Dian Hanifudin Subhi
- Email: dhanifudin[at]polinema.ac.id
- Room: 4th Lecturer Room

We are going to learn

- UML (Unified Modeling Language)

- Domain Modeling

- Use Case Modeling

- Activity Diagram

- State Machine Diagram

- Robustness Analysis

We are going to learn

- Sequence Diagram

- Interaction Overview Diagram

- Class Diagram

- Advanced Class Diagram

- Deployment Diagram

- Project

Software and Tools

- UML Tools (StarUML, draw.io, etc)

- Word Processor (MS Word, WPSOffice, LibreOffice, etc)

- Collaboration Tools (Google Drive, Miro, Trello, etc)

Discussion

- Why do we need to learn OOAD?

- what's the relation between OOAD and OOP (Software Engineering)?

Summarize it as Presentation then submit it to LMS

Thank you
